

Business Case Analyst**SCOPE:****PLACE OF PERFORMANCE:** PM-LAV, TACOM, Warren, MI**POSITION DESCRIPTION:** Prepare a Business Case Analysis (BCA) to evaluate the viability of various logistics support strategies for the FMTV [Family of Medium Tactical Vehicles] program**Duties:**

- Provide technical, business and analytical support for the following tasks:
 - Identify program deficiencies.
 - Identify alternate support options and document risks, benefits, and cost considerations for each alternative.
 - Alternate support options may include Contractor Logistics Support (CLS) or a combination of organic support and CLS.
 - Alternate support options must achieve a DA readiness rate of 90% at a minimum for the FMTV.
 - Consider impacts that may change the BCA decision (i.e. peacetime, wartime, surge requirements).
 - Suggest performance metrics for each strategy.
- Establish the analytical framework, oversee the selection and use of models employing the data, validate the findings of the process, and quantify those results with course of action recommendations.
- Analyze data to assess costs, risks, benefits and request additional clarification and validation of data on an as needed basis.
- Support this effort with expert interpretation of the outputs of each scenario developed and an approved decision point by the Government before proceeding on to finalizing each recommendation provided.
- Provide support as needed during the time the BCAs are being staffed for PEO and AAE review and approval.
- Provide preliminary alternate support options for Government consideration upon completion of the review of the current support strategy.

Skills and Attributes:

- Systems Analyst skills in a Business Case environment;
- Familiarity with the FMTV

Requirements:

- Baccalaureate degree required; Advanced degree preferred
- Minimum 3 years' experience as a Business Case Analyst or equivalent

Salary Range:

- \$55,000 to \$80,000
